Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the examiner has considered the amendment filed by applicants on August 14, 2008 and the arguments therein. Applicants' arguments were persuasive. The reference relied upon for the rejections of record fails to teach or suggest the bisphosphite compound disclosed in the instant claims. Modification of the compounds taught in the closest prior art *of record* would mean not only modifying the structure of said compound to include an alkyl group between the oxygen atoms and aryl groups, but also manipulating the compounds such that the carbon of the alkyl group is specifically bound to the aryl group at the ortho position. This level of manipulation of prior art compounds would not have been an obvious undertaking to a person having ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikarl A. Witherspoon whose telephone number is 571-272-0649. The examiner can normally be reached on M-F 8:30-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel Sullivan can be reached on 571-272-0779. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
